CAREER OBJECTIVE

Motivated MCA student with strong knowledge of Core Java, OOPs, and JDBC. Experienced in building desktop applications using Java Swing and database-driven systems. Currently learning Spring Boot and React, seeking a Java Developer Intern role.

TECHNICAL SKILLS

Programming: Core Java, OOPs

Backend: JDBC (Learning: Spring Boot)

Frontend: HTML, CSS (Learning: React)

Database: MySQL, PostgreSQL

Tools: Eclipse IDE, IntelliJ IDEA, SQLyog

PROJECTS

Java Quiz Application (GUI - Swing) | GitHub: github.com/AnitaSihag01/Quiz

- Developed a desktop-based quiz system using Java Swing for GUI.
- Implemented MCQ system with answer validation and automatic score calculation.
- Integrated timer and lifeline features to enhance user interaction.
- Used JDBC to connect with MySQL database for storing questions and results.
- Generated detailed result summary including performance analysis.

Bank Management System (Console-Based)

- Developed a console-based banking system supporting account creation, deposit, withdrawal, and balance inquiry.
- Implemented admin functionality to manage accounts and monitor transactions.
- Integrated OTP authentication using random number generation for secure verification.
- Used PostgreSQL with JDBC for secure data storage and retrieval.
- Applied OOP principles to design modular and maintainable application structure.

EDUCATION

MCA – IIMT College of Engineering, Greater Noida (2025–2027)

BCA – Maharaja Ganga Singh University, Bikaner (2022–2025)

CERTIFICATIONS

- IBM Java Developer Professional Certificate – Coursera (In Progress)

Includes: Java Programming for Beginners, Object-Oriented Programming in Java, Java App Development (OOP & File I/O)

SOFT SKILLS

Quick Learner | Problem Solving | Communication | Team Player
